DETAILED ACTION

Election/Restrictions

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group 1, claim(s) 1-20, drawn to a method for covalently immobilizing biopolymers on a solid phase (formula III).

Group 2, claim(s) 21-25, drawn to a device.

Group 3, claim(s) 26-30, drawn to a method of amplification.

Group 4, claim(s) 31-40, drawn to a method for covalently immobilizing biopolymers on a solid phase (formula V).

Group 5, claim(s) 41-43, drawn to a method of separating double stranded nucleic acids.

The inventions listed as Groups 1-5 do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: group 1-4 are directed to different inventions directed to different special technical features of formulae III and V. Invention of group V is directed to a completely different invention which is not using any of the special technical feature.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Art Unit: 1637

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
